Rina J. Mendoza

Full Stack Web Developer
Saint Petersburg, FL (Open to relocation opportunities) | (724) 622-8430
rinamendozaa@gmail.com | *Portfolio* | *LinkedIn* | *GitHub* | *Medium*

PROFESSIONAL SUMMARY

Eager Software Developer with competence in modern technologies. Adept at project management, leading teams, working with clients, vendors, and contractors. 7+ years property management experience.

SOFTWARE DEVELOPMENT EXPERIENCE

Storage.io | *Live Website* | *Github Repository*   *July 2022*
- o   Programmed a full-stack site in a 3 person team focused on users in the process of moving to a new home, in need of tracking where their packed belongings are kept in a storage container.
- o   Developed database using PostgreSQL with Sequelize-Object Relational Mapping. Server created with Express.js, client-side features Mustache-express, JavaScript, Bootstrap, CSS and JQuery.
- o   Implemented authentication and session middleware, routing information passed to database, web-responsive layout, mustache pages, and styling.

City of Refugee Mentorship Program | *Github Repository*   *June 2022*
- o   Selected to participate in 8-hour hackathon of 20 participants, focused on building a recruiting program which pairs mentors and students together in the Atlanta, GA area.
- o   Built using React and Express.js - participants divided into frontend, backend and design groups.
- o   Responsible for foundation of UI using JSX syntax to create React components and minor scss.

Halfway There | *Live Website* | *Github Repository*   *June 2022*
- o   Collaborated in a 2 person development team building a geolocation site using the Google Cloud Platform, allowing a user to find the halfway point between two inputted addresses and returns a list of businesses surrounding the midpoint.
- o   Responsible for layout design and dynamically displaying businesses near midpoint using Google Places API, along with calculating distance in miles from midpoint to both starting addresses.
- o   Assembled using JavaScript, Leaflet API, Open Street Map, Google Maps/Places APIs.

PROFESSIONAL WORK EXPERIENCE

Rose Community Management | Assistant Community Manager | Operations Manager   *April 2019-April 2022*
- o   Assisted with management of 231 residential units, and team of 5 at Perrytown Place, Pittsburgh, PA.
- o   Performed daily building maintenance inspections, oversaw renovation/repairs, and managed vendor contracts.
- o   Prepared leases for execution/termination, audited transactions, managed delinquent accounts, and bank deposits.
- o   Planned resident gatherings to build community; spearheaded COVID-19 protocols and organized vaccine access for residents.

Asset Living | Accounts Manager   *May 2015-April 2019*
- o   Managed a team of 13 at Campus Connection, in Indiana, PA, with 622 residents, 3 residential and 2 commercial properties.
- o   Accountable for collecting rent, accounts payable, and managing delinquent accounts.

TECHNICAL SKILLS AND AFFILIATIONS
